

THE WESTIN STORY

The first ever Westin lure was created by the late Ingvar Westin, a skilled toolmaker who wanted to make a toy for his children. He carved a fish which wriggled and rolled like a real fish as they dragged it through the water. And since it looked like an oversized pike lure, he christened it "Jätte" – The Swedish word for "giant". The Westin Jätte was born, and so was an entire new fishing movement – the Westin roll.

Even though he was creating a toy, Ingvar Westin was driven by passion and perfection. So it wasn't long before others noticed the characteristic looks and movement of the Jätte. Local pike fishing experts compared its perfect balance and side-to-side swimming action with the pike lures of the time. They found that due to Jätte's size and unique action the biggest pike were irresistibly attracted to it. The childrens' 'toy' had found a serious purpose among the grown-ups!

Before long, pike fishermen near his home in Skutskär near Gävle were demanding Ingvar make more and more of these amazing lures for them in a choice of colours.

They used them in the local lakes, rivers and the brackish water of the Baltic Sea nearby – excellent pike fishing waters that offered up loads of great specimens to the new lure. Ingvar soon had a busy production line running.

By the time it allegedly trapped a giant pike in excess of 20Kg in the Archipelago of Norrtälje in 1977, Jätte was famous far and wide as the go-to big predator lure.

Since then, the Westin Jätte has deceived some of the biggest, wiliest old pike in Sweden. What started out as a child's plaything in 1952 has now become a well-established and trusted brand in the fishing tackle industry.

Today Westin offers a wide range of trusted lures, rods and other fishing equipment – all produced with the same passion for perfection as Ingvar Westin's original lure, and created to satisfy those looking for the best tools to pursue monster fish

W 10 POWERCAST-T

Code	Model	Length	Class	Cw	Sections	Tube	Transport L.	Weight	Ct
W1001-0802-XXH	W10 Powercast-T 8'	8'/240 cm	XXH	40-150 g	2	W10 Octagon Tube	126 cm	168 g	1

The W10 Powercast-T is the ultimate allrounder for pike fishing. With this rod you can handle all your lures in all kinds of waters and conditions. The high-performance slim blank has the strength for big lures and tough conditions but also the sensitivity and lightness for smaller lures. You practically only need this rod.

The Westin W10 leverages the absolute latest design and technological advancements to provide cutting-edge performance that can't be found anywhere else. Each blank is handcrafted with X5 carbon layer technology and 4-axial woven carbon reinforcement on the outer layer for superior action, ultimate sensitivity and maximum strength. Thanks to TORAYCA® 'Nanoalloy® 55TON' by Toray®, high modulus carbon and the newest nano resin technology from Toray we have been able to develop a rod with unmatched strength and sensitivity while maintaining light weight and durability. In our production facility, the rods are manufactured according to the highest level of quality control, each blank is individually strength tested before release. The Westin W10 rods feature a Fuji® non slip reel seat, tangle free, top of the line, Fuji® Titanium Torzite® guides and Seaguide® stainless hook-keeper. The lightweight G-Hyper carbon handle is custom designed for extreme grip and comfortable hold – both in cold weather and during hot summer days. The Westin W10 rods will give you a distinct advantage on the water.

- Handle: Custom designed G-Hyper carbon handle
- Reel seat: Fuji® SKTS, rubber coated
- Hood: 360° custom designed screw-down with 1k woven carbon reinforcement
- Guides: Tangle free Fuji® Titanium Torzite® K guides
- Blank: Torayca® 'Nanoalloy® 55TON' and X5 carbon layer technology
- Blank color: Matt black with 4-axial carbon reinforcement
- Joint: 4-axial and 1K carbon reinforced spigot joint
- Hook-keeper: Seaguide® Stainless DHOOK
- Custom made rubber gimbal, non-slip design
- Low-profile guide wrappings
- Delivered in Octagon Cordura tube and velvet rod bag
- Unique serial number on each rod

W10 SPIN RODS 5

W 8 POWERSTRIKE

This high-end rod is designed for tackling pike and zander with medium-sized lures either from the boat or from the bank. The top action has been improved and so has the amount of power in the blank, meaning you can work hardlures, crankbaits and softlures with relative ease. This short rod is the ultimate all-rounder – pick him in any position in your team and he won't let you down.

- Handle: Super grade cork handle
- Reel Seat: Fuji® SKSS hand painted in Fe2O3 Iron Oxide color
- Guides: Fuji® SiC
- Blank: Torayca® High Performance Carbon for superior action, ultimate sensitivity, light-weight and maximum strength
- Blank color: Hand painted in Fe2O3 Iron Oxide color (each rod is unique in color pattern)
- Custom made rubber gimbal, non-slip
- Quattro cross carbon reinforcement in handle section
- Low-profile guide wrappings
- PacBay® hook keeper
- Delivered in Octagon tube

W 8 POWERCAST-T

The go-to tool for hardcore Scandinavian pike anglers, this light, but powerful predator rod will handle any lure or big spinner and give you more than enough grunt to bring in your personal best. Rod design and blank technology at the highest level is exactly what this rod offers. Our designers set out to build the coolest rod on the market and came up with something Butch n' Sundance would have been proud to pull out. With its comfortable trigger handle, the Powercast-T is built from the very finest components and materials we could source and it's one of the lightest, most powerful rods you can buy.Try it. Use it for a day and you won't feel tired - just hungry for more

- Handle: Super grade cork handle
- Reel Seat: Fuji® PULS, hand painted in Fe2O3 Iron Oxide color
- Guides: Fuji® SiC
- Blank: Torayca® High Performance Carbon for superior action, ultimate sensitivity, light-weight and maximum strength
- Blank color: Hand painted in Fe2O3 Iron Oxide color (each rod is unique in color pattern)
- Custom made rubber gimbal, non-slip
- Quattro cross carbon reinforcement in handle section
- Low-profile guide wrappings
- PacBay® hook keeper
- Delivered in Octagon tube

W 8 POWERSHAD

For refined, spin fishing, this baby is so sensitive you can feel a fish fart at 500m, but it also gives you a serious amount of grunt in the backbone to fight the really big ones when they bite. And while it's perfect for hair-trigger fishing with petite shads and wobblers, it's still got a surprising amount of power when you want to cast out bigger lures. Rod design and blank technology at the highest level is exactly what this rod offers.

- Handle: Super grade EVA compact and non-slippery
- Reel Seat: Fuji® SKSS, hand painted in Fe2O3 Iron Oxide color
- Guides: Fuji® SiC KL-Frame
- Blank: Torayca® High Performance Carbon for superior action, ultimate sensitivity, light-weight and maximum strength
- Blank color: Hand painted in Fe2O3 Iron Oxide color (each rod is unique in color pattern)
- Custom made rubber gimbal, non-slip
- Quattro cross carbon reinforcement in handle section
- ProWrap[™] low-profile guide wrappings
- Delivered in Octagon Cordura tube

W 8 ULTRASTICK

The Ultrastick rod has been painstakingly engineered to be an accurate caster, strong fighter and incredibly lightweight - it allows you to float like a feather and sting like a bee. You'll find yourself questioning the very laws of physics when this super lightweight blank sets hooks with the best of them and offers firm fighting power, great sensitivity and a fast action. Using smaller soft lures and medium-sized crankbaits, you can target smaller predators like perch or trout but still enjoy a fight that gets the heart pumping. The science behind how this rod can offer so much is down to a blank innovation that uses three different degrees of carbon prepreg, within the layers of this lies a patented Nano technology at the core. But the best way to appreciate it, is to take some predators for a dance with it yourself.

- Handle: Super grade EVA compact and non-slippery
- Reel Seat: Fuji® SKSS, hand painted in Fe2O3 Iron Oxide color
- Guides: Fuji® SiC
- Blank: Torayca® High Performance Carbon for superior action, ultimate sensitivity, light-weight and maximum strength
- Blank color: Hand painted in Fe2O3 Iron Oxide color (each rod is unique in color pattern)
- Custom made rubber gimbal, non-slip
- Quattro cross carbon reinforcement in handle section
- Low-profile guide wrappings
- PacBay® hook keeper
- Delivered in Octagon tube

W 8 VERTICAL JIGGING

For Vertical Jigging the combination of raw strength, sensitivity and lightness makes this rod the perfect choice. To our consultants fishing is a lot more than just fun. A lot of times it's though competition where the numbers of hookups and landed fish makes a great difference between being on top or somewhere down the ranks. This rod is perfectly balanced for using a fixed spool reel and the use of High Performance Carbon makes it lighter, stronger, more sensitive and faster responding than any other vertical rod you have ever tried.

- Handle: Super grade EVA compact and non-slippery
- Reel Seat: Fuji® SKSS, hand painted in Fe2O3 Iron Oxide color
- Guides: Fuji® SiC
- Blank: Torayca® High Performance Carbon for superior action, ultimate sensitivity, light-weight and maximum strength
- Blank color: Hand painted in Fe2O3 Iron Oxide color (each rod is unique in color pattern)

	0		100			TORA		GUIDEO	Fuii

The Westin W6 Powershads are in a class of their own. A powerful, super light blank, deep action and slightly softer tip make them perfect for throwing lures from boat or bank. It really comes into its own fishing soft lures, where the soft tip gives you supreme control, but it handles crankbaits just as well. the Torayca® carbon blank contributes greatly to the sensitivity and feel, while retaining great power — it's the perfect weapon for perch, zander and pike.

- Split-handle with super grade EVA compact and non-slippery
- Reel Seat: Fuji® TVS, rubber coated
- Guides: Fuji® SiC
- Blank: Torayca® High Performance Carbon for superior action, casting and strength

W613-0662-XXH	W6 Jerkbait-T	6'6"/195 cm	XXH	40-130 g	1+1sec	-	141 cm	164 g	1

Jerkbait fishing means heavy rods and big power, right? Not so with this W6 Jerkbait rod – it offers a new dimension to jerkbait fishing with incredible sensitivity and a medium/fast action that will register even the gentlest of takes, meaning you won't miss a bite. The joint has been placed just above the handle, so the fighting curve of the blank remains uninterrupted. It's a smooth fight that will have you thinking about the next trip before you've even finished the one you're on.

- Split-handle with super grade EVA compact and non-slip
- Reel Seat: Fuji® PULS, rubber coated
- Guides: Fuji® SiC
- Blank: Torayca® High Performance Carbon for superior action, casting and strength

						TORA	SIC PRINCE HOUSE A	GUIDEO STANCOSTO AL FRANCIS	(Fuji)

Hold the phone, we've found you a new dancing partner. The W6 Dropshot is superbly balanced with a soft and sensitive tip that can detect any bite, allowing you to dance your soft lure along the bottom in your own unique way. A medium/fast action means you can set hooks instantly when a hungry perch or zander comes to interrupt your dance. The rod also benefits from some super smart design ideas that you have come to expect from Westin — a flattened and slightly curved top edge of the rear handle for increased support and control makes it a true pleasure to use.

- Split-handle with super grade EVA compact and non-slip
- Reel Seat: Fuji® SKSS, rubber coated
- Guides: Fuji® SiC
- Blank: Torayca® High Performance Carbon for superior action, casting and strength
- Flat rear handle
- Solid Tip

W619-0742-MH	W6 Finesse Shad	7'4"/220 cm	MH	10-28 g	2sec	-	116 cm	125 g	1
W619-0762-H	W6 Finesse Shad	7'6"/225 cm	Н	12-38 g	2sec	-	119 cm	132 g	1

Do you need a bit more power when you are targeting big perch and zander? Then our W6 Finesse Shad is the right tool for you. Pick one up and you'll experience the highest levels of accuracy, power and sensitivity. This is one of the absolute best perch/zander rods money can buy. Perfect for medium to heavy jig fishing when you want to fish in deeper waters. Each rod incorporates the finest components, including super-lightweight Fuji reel seats, EVA grips and Fuji guides selected specifically for this series.

W6 Finesse Shad – the new benchmark in perch/zander rods.

- Split-handle with super grade EVA compact and non-slip
- Reel Seat: Fuji® SKSS, rubber coated
- Guides: Fuji® SiC
- Blank: Torayca® High Performance Carbon for superior action, casting and strength
- Custom made rubber gimbal, non-slip
- Low-profile guide wrappings
- PacBay® hook keeper

W 6 FINESSE T&C

Code	Model	Length	Class	Cw	Sections	Tube	Transport L.	Weight	Ct
W614-0712-ML	W6 Finesse T&C	7'1"/213 cm	ML	5-15 g	2sec	-	112 cm	105 g	1

If you're into light tackle predator fishing, then the W6 Finesse T&C (Texas & Carolina) rod is your new best friend. It's superlight and sensitive with a fast tip action that will register any nibble and set the hook in any situation. It is perfect for casting soft lures or slowly twitching a Texas or Carolina rig along the bottom. You can use it when pitching small crankbaits in shallow water for perch, bass or zander. Finesse rods have just reached the next level, and you're invited to the club.

- Split-handle with super grade EVA compact and non-slip

Combining street smarts design with great fishing technology, the W6 StreetStick is perfect for fishing in urban environments, small lakes and rivers, harbours and rock fishing. This rod has just as much technical performance as it does attitude – with a medium/ fast action it can handle light softlures and small hardlures for targeting perch, trout and other smaller critters. We guarantee that you won't be able to catch something on this rod without a huge smile on your face.

W607-0522-M	W6 Jigging-T	5'2"/155 cm	М	250-400 g	1+1sec	-	90 cm	361 g	1

This speed jigging rod puts an end to the airport check in counter quarrels and the struggles of a lost rod barrel once you reach your dream destination. A two-section rod design makes it easier than ever to fit you rods in a suitcase, backpack or duffel bag to conquer the growing jungle of airport restrictions. On a rod made to wrestle some of the biggest and strongest fish designing a joint takes special attention. The mission of our rod designers was to make sure even the best reels broke before the rod. They succeeded and created the ultimate strength travel rod for speed jigging with large fixed spool reels.

- Saltwater super grade EVA handle
- Reel Seat: Fuji® DPS with unique rubber coating
- Guides: Fuji® SiC MN
- Blank: Torayca® High Performance Carbon for superior action and casting
- Reinforced with 90° Carbon
- Aluminum Cross Gimbal
- Pac Bay Rubber Gimbal Cover
- Delivered in padded cloth bag
- Unique serial number on all rods
- PE4- 8 Max Power 33 kg

W 6 POPPING

When fishing at a remote tropical destination no failures are allowed. Our rod designers knew this, when we asked them to make a range of rods that will make even the best reels breake, if the rods are pushed to the max! Westin W6 Popping are designed for casting poppers and wrestling with rooster fish, GT's, cubera snappers and all other tough, tropical species. The rods feature saltwater super grade EVA handles, Fuji® DPS reel seat and Fuji® SiC guides. These rods will wrestle any monster fish and since they fit into your luggage, you will avoid airline restrictions and all the 'following-the-rules-monsters' waiting at the check in counter.

- Saltwater super grade EVA handle
- Reel Seat: Fuji® DPS with unique rubber coating
- Guides: Fuji® SiC MN / Fuji® K-series SiC guides
- Blank: Torayca® High Performance Carbon for superior action and casting
- Reinforced with 90° Carbon
- Maximum strength joints
- Delivered in padded cloth bag
- Unique serial number on all rods
- PE6- 10 Max Power 12 kg / 22 kg

18 W6 SEA RODS

W 6 BOAT

Enough messing around, sometimes fishing is serious, and the W6 Boat is for those occasions. Designed following a long testing process it is perfect for hardcore guides or sea anglers. When chasing monster predators, like cod and halibut, you need three things: sensitivity, lightness and raw strength – and this rod has the top card in all three. Torayca® High performance carbon gives you a light and sensitive rod that could also pull any monster from the depths. If this rod was a human it would make Arnold Schwarzenegger look like a wimpy kid.

- Saltwater super grade EVA handle
- Reel Seat: Fuji® DPS-H, rubber coated
- Guides: Fuji® SiC
- Blank: Torayca® High Performance Carbon for superior action, casting and strength
- Custom design Comfort Cross Gimbal (CCG)
- Low-profile guide wrappings

W6 SEA RODS

W 6 SPIN

Code	Model	Length	Class	Cw	Sections	Tube	Transport L.	Weight	Ct
W610-0902-M	W6 Spin	9'/270 cm	М	7-30 g	2sec	-	141 cm	174 g	1

W610-1002-MH	W6 Spin	10'/300 cm	MH	10-40 g	2sec	=	155 cm	225 g	1

We know that medium/fast blanks have become a classic for many Scandinavian seatrout anglers, so instead of creating something new, we decided to try and perfect that. The W6 Spin is a casting cannon with a super sensitive feel that means you can still tell exactly what is going on even when fishing far out, and the power of its blank means you can tame hard-fighting fish with ease. This rod is especially designed for seatrout fishing on the coast — you can throw your lures in the harshest wind and rain, this baby can handle it — can you?

- Handle: Super grade cork handle
- Reel Seat: Fuji® TVS, rubber coated
- Guides: Fuji® SiC
- Blank: Torayca® High Performance Carbon for superior action, casting and strength
- Unique Axe/Samurai sword shape on rear handle
- Low-profile guide wrappings
- PacBay® hook keeper

20 W6 SPIN RODS

W 4 POWERCAST

The action and characteristics of these rods were carefully designed to meet the demands of Scandinavian predator specialists. These rods are designed for spinning reels, casting with lures, spinner baits or even live baits for huge pike. The Powercast rods are hugely versatile and feature the finest Japanese Torayca® carbon, genuine spigot joints and the very best in guides and reel seat from SeaGuide and Fuji®.

- Reel Seat: Fuji® VSS
- Guides: SeaGuide LTS
- Blank: Torayca® High Performance Carbon for superior action and casting

Casting XXL Shads for hours might sound like a tough job, but once you lean into one of those monster pikes it's well worth the effort. These powerful Westin Powershad-T rods make getting there a lot easier. And once you're hooked up you can be sure that the Torayca® High Performance Carbon blank will put you in control of things. The W4 Powershad-T rod has a softer tip, but holds a lot of backbone in the blank to set the hooks. Designed for soft lures, but works equally well for casting with hard lures, spinnerbaits or other heavy lures for heavy predators.

- Reel Seat: Fuji® ACS Trigger
- Guides: SeaGuide® LTS
- Blank: Torayca® High Performance Carbon for superior action and casting
- Premium grade cork handle
- Custom made rubber gimbal, non-slip
- Reinforced with 90° Carbon

- Delivered in W4 Rod Case

W 4 KAYAK

The W4 Kayak is designed to provide kayak enthusiasts with both the durability to perform in the unforgiving kayak angling environment, and the functionality necessary for those close quarters fishing scenarios. This easy-to-transport two-piece rod will transmit the gentlest takes to your fingers, but concentrate blank power in the mid-section and stiff butt making it easy to fight big fish from a seated position. W4 Kayak is the perfect tool for the passionate kayak angler!

- Reel Seat: Fuji® SKSS
- Guides: SeaGuide®
- Blank: Torayca® High Performance Carbon for superior action
- Short, kayak-ready cork handle
- Custom made rubber gimbal, non-slip
- Reinforced with 90° Carbon
- KIGAN® hook keeper
- Delivered in W4 Rod Case
- Designed and built for passionate kayak anglers

W 4 VERTICAL JIGGING-T

This is going to be your new favourite rod. Which is good because the brilliant new two piece design means you can take it anywhere! And yet when you use it, you'll swear it's a one-piece - with our special Torayca® high performance carbon, the action goes smoothly right through the joint. It's powerful enough to scrap with the meanest predators and yet as sensitive as a kitten's whiskers when there's a nibble in the offing.

- Reel Seat: Fuji® SKTS
- Guides: SeaGuide®
- Blank: Torayca® High Performance Carbon for superior action
- Premium grade cork handle
- Custom made rubber gimbal, non-slip
- Reinforced with 90° Carbon
- KIGAN® hook keeper
- Delivered in W4 Rod Case

The second second									

The W4 UltraStick combines the three key attributes you want in a rod – its stiff, super sensitive and has a fast progressive action. The only problem with that is, you will never have an excuse to miss a bite again, and these rods are that good at bite detection. They're not lacking backbone though – you can set the hook hard and extract large fish from cover and weed. Versatility is another terrific strength of these rods – they are just as adept with small and medium-sized wobblers as they are with soft lures.

- Reel Seat: Fuji® SKSS
- Guides: SeaGuide®
- Blank: Torayca® High Performance Carbon for superior action and casting
- Premium grade cork handle
- Custom made rubber gimbal, non-slip
- Reinforced with 90° Carbon
- SNAKE hook keeper
- Delivered in W4 Rod Case

W 4 LIGHTSTICK

The W4 LightStick is designed to target small and middle-sized predators such as perch, zander, trout, black bass and seabass. This rod can be used for a large variety of techniques; fishing with soft lures on light jiheads, spinners, small wobblers, minnows and crankbait and even Dropshot and Texas and Carolina rigs. It's extremely lightweight thanks to the Japanese Torayca® High Performance Carbon. You can feel the lure swimming and feel even the most careful takes. We chose small guides for longer casting distance and slim design.

- Reel Seat: Fuji® SKSS
- Guides: SeaGuide®
- Blank: Torayca® High Performance Carbon for superior action and casting
- Premium grade cork handle
- Custom made rubber gimbal, non-slip
- Reinforced with 90° Carbon

The bastard son of our much-praised Dynamic Series, this perfectly-formed little beast uses high-quality Japanese Torayca® carbon to give you the response speed of a rattlesnake. What's more, it's more sensitive than a Scotsman with a grudge, so you'll feel absolutely everything. Perfectly-designed for casting shads but just as good at launching wobblers from boat or shore.

- Reel Seat: Fuji® VSS

- Reinforced with 90° Carbon
- SNAKE hook keeper
- Delivered in W4 Rod Case

W 4 POWERSHAD-T

Perfect for casting shads, but equally good casting wobblers from the boat – or from the shore, this souped-up jigger (bred from our influential Dynamic series) transmits the wariest bites like a bolt of electricity, thanks to its incredible Torayca® carbon blank. And yet setting hooks is like instant remote control, thanks to the power coursing through the shaft.

- Reel Seat: Fuji® ACS-Trigger
- Guides: SeaGuide® LTS

These rods are prefect hybrids between boat fishing rods and pike fishing rods. Bottom fishing for plaice and turbot, casting lighter jigs for halibut or casting shads or lures for pike... It all takes a sensitive yet fast action with a lot of backbone. Exactly this type of action is what our development team managed to get out of the finest Japanese Torayca® carbon. The unique shape of the extended front handle gives you exact control of every little movement or twitch of your lure. W4 Powercast 8' features our CCG Gimbal, genuine spigot joints and the very best in guides and reel seat from SeaGuide and Fuji®.

The light fantastic. The Monsterstick feels as light as an angel when you first pick it up. But let it get the slightest hint of a fish and it turns into a demon. Lightweight enough to fish with for days on end, you'll definitely want this heavy duty brawler in your corner when you go pike and muskie fishing. Because when you want to cast heavy lures for record fish you need to bring out the big guns!

We know just how popular our W4 Spin rod has been over the last few years, so we wanted to make it more accessible to more anglers. Now you can carry the W4 wherever you go in its new four-piece configuration, making it the perfect travel rod. It can be packed down very small and is ideal for fishing for seatrout, trout and other lighter species. But don't think that just because it's a travel rod it doesn't pack a punch. The W4 is made the finest Torayca® carbon to offer power and sensitivity and features A-grade components such as Fuji® reel seat, SeaGuide® LTS Guides and a luxury rod case. Travelling while fishing doesn't mean you have to compromise with your gear, we made sure of that.

W 4 SPIN-T

A superb finish, a classic look – the W4 Spin-T rod would not look out of place in a supercar showroom, let alone a tackle shop. They have performance to match those good looks with a Torayca® carbon blank that offers super sensitivity and immense power to boot. You can achieve fast, progressive casts with great accuracy and benefit from a huge reserve of fighting power. They are at home when long casting with a baitcasting reel and ideal for coastal spin fishing big lakes and rivers. Seatrout, salmon and seabass beware – this rod has your number.

- Reel Seat: Fuji® ACS-Trigger
- Guides: SeaGuide
- Blank: Torayca® High Performance Carbon for superior action and casting
- Premium grade cork handle
- Reinforced with 90° Carbon and 3K Woven Carbon
- SNAKE hook keeper
- Delivered in W4 Rod Case

W4 SPIN RODS 31

W 3 POWERSTRIKE

Strike with power and make sure you catch that fish to save the day with the W3 Powerstrike. It is perfect for smaller softlures and medium-sized crankbaits and has a sensitive tip, powerful blank and medium/fast action. This rod takes you back to the very reason you took up fishing in the first place — it is a whole lot of fun.

- Reel Seat: SKS
- Guides: LTS ring guides
- Blank: Torayca® High Performance Carbon for superior action and casting
- Split-handle with premium grade EVA with rubber cork insert
- Reinforced with 3K woven Kevlar

W 3 POWERSTRIKE-T

Using medium-sized softlures, crankbaits and spinnerbaits has never been easier than with this W3 Powerstrike-T rod. It has a sensitive tip, powerful blank and medium/fast action, and comes into its own fishing from the boat or the bank. It's just a good, honest, fun fishing rod. Pick one up and brighten your day.

- Reel Seat: SKC
- Guides: LTS ring guides
- Blank: Torayca® High Performance Carbon for superior action and casting
- Split-handle with premium grade EVA with rubber cork insert
- Reinforced with 3K woven Kevlar

W 3 POWERTEEZ

Code	Model	Length	Class	Cw	Sections	Tube	Transport L.	Weight	Ct
W301-0842-ML	W ₃ PowerTeez	8'4"/250 cm	ML	7-28 g	2sec	-	129 cm	191 g	1
W301-0842-M	W3 PowerTeez	8'4"/250 cm	М	14-49 g	2sec	-	129 cm	195 g	1

W301-0902-MH	W3 PowerTeez	9'/270 cm	MH	21-70 g	2sec	-	139 cm	215 g	1

Balance is everything when jigging with softbalts and with this PowerTeez rod you will be more balanced than a high-rise tightrope walker. The rod feels like a natural extension of the arm and, thanks to a fast blank, good casting ability and a very sensitive tip action, you won't miss many bites. Even the tentative nip of even the most cautious fish has the potential to be turned into a fish in the net with this rod.

- Reel Seat: VSS
- Guides: LTS ring guides
- Blank: Torayca® High Performance Carbon for superior action and casting
- Premium EVA handle
- Reinforced with 3K woven Kevlar

- Reinforced with 3K woven Kevlar

W 3 FINESSE CRANK-T

Code	Model	Length	Class	Cw	Sections	Tube	Transport L.	Weight	Ct
W325-0702-ML	W ₃ Finesse Crank-T	7'/210 cm	ML	5-20 g	2sec	-	110 cm	107 g	1
W325-0702-M	W ₃ Finesse Crank-T	7'/210 cm	М	10-30 g	2sec	-	110 cm	119 g	1

Ever wanted to fish with braid that behaved like fluorocarbon? Sound like a pipe dream? Well think again – the new W3 Finesse Crank-T rod from Westin has a specially designed blank that compensates for the lack of stretch in braid. This is great news for crankbait fishing fans, who know all too well the benefits of the stretch and density that fluorocarbon line normally offers – now you have the best of both worlds – because Westin is nice like that.

You can throw and work those crankbaits all day long and this rod will take it like a man, but it also has a wonderfully sensitive feeling thanks to the low weight and the split handle, keeping you in touch with the blank at all times. It's like a 'spidey sense' for your crankbait fishing! Just don't blame us if you get too used to how well it controls your fishing, it won't be like this with every rod!

- Reel Seat: SKC
- Guides: LTS ring guides
- Blank: Torayca® High Performance Carbon for superior action and casting
- Split-handle with premium grade EVA with rubber cork insert
- Reinforced with 3K woven Kevlar
- Braid compensated blank, designed for fishing with modern braided lines

W 3 FINESSE T&C

The W3 Finesse T&C (Texas & Carolina) is an excellent rod for all kind of predator fishing with both soft and hard lures. The rod is light and sensitive but fast and powerful enough to set the hook in the hard, bony mouth of any predator! It is perfect for casting soft lures or slowly twitching a Texas or Carolina rig along the bottom. You can use it when pitching small hard lures in shallow water for perch and bass or targeting trout and zander in deeper areas. W3 Finesse T&C is a great all-round tool for light and medium style predator fishing!

- Reel Seat: SKS

W312-0812-MH	W3 StreetStick	8'1"/243 cm	MH	5-15 g	2sec	-	126 cm	113 g	1

Get ready for a fishing rod that could quickly become an essential as your ultra-light weighted alternative to your heavier rods!

The rod-range covers a wide range of fishing types with micro hard and soft lures, so whether your prize fish is perch, juvenile pike/zander, trout or small spiny critters from the sea - this range has you covered.

A soft tip, but a fast action in the blank means you can throw lures all day long while throwing lures in your favorite fishing area. Grab your shades, your cap and your W3 StreetStick and you're good to go - we guarantee that you won't be able to catch something on these types of rods without a huge smile on your face!

W 3 DROPSHOT

Code	Model	Length	Class	Cw	Sections	Tube	Transport L.	Weight	Ct
W313-0672-ML	W ₃ Dropshot	6'7"/198 cm	ML	4-21 g	2sec	-	102 cm	108 g	1
W313-0802-M	W3 Dropshot	8'/240 cm	М	5-28 g	2sec	-	126 cm	125 g	1
W313-0902-M	W3 Dropshot	9'/270 cm	М	5-28 g	2sec	-	140 cm	143 g	1

A sensitive Torayca® Carbon blank with excellent hook setting abilities and lots of fighting power makes up the backbone of the W3 Dropshot rods. The two-part SKS reel seat is extremely light and offers direct contact to the Kevlar Carbon reinforced blank resulting in a better feel and bite detection. The flat rear handle is designed to rest on the underarm during fishing and besides being comfortable it also helps in stabilizing the rod. Details like the unique hook keeper also makes a big difference. When using a typical dropshot rig simply slide in the line and tighten up to fix the dropshot sinker. This will keep the rig from tangling when moving between fishing spots

- Reel Seat: SKS
- Guides: LS ring guides
- Blank: Torayca® High Performance Carbon for superior action and casting
- Premium grade EVA handle with rubber cork insert
- Reinforced with Kevlar Carbon
- Flat rear handle
- KIGAN® hook keeper
- Solid Tip

- Premium EVA handle with rubber cork insert
- Reinforced with 3K woven Kevlar
- Orange high-viz tip

W 3 TROLLING

Unlike conventional trolling and downrigger rods these W3 trolling rods are designed specifically for trolling large lures and targeting big freshwater predators like pike, zander and muskies. These rods are ready to set the hooks even if the lures are swimming far from the boat. W3 Trolling rods will also handle live bait, line-mounted side planners or other tactics used for modern predator trolling. Besides superb fittings and the Torayca® High Performance Carbon blank W3 Trolling also features the special design Comfort Cross Gimbal (CCG). When fighting a fish the CCG feels like a normal rubber butt cap, but the CCG will fit in and stabilize the rod when placed in a fighting belt or cross type rod holder.

- Reel Seat: DPS
- Guides: N Type TS ring
- Blank: Torayca® High Performance Carbon for superior action
- Special design Comfort Cross Gimbal (CCG)
- Premium grade EVA handle
- Reinforced with Kevlar Carbon

W 3 BOAT

Code	Model	Length	Class	Cw	Sections	Tube	Transport L.	Weight	Ct
W320-0703-XH	W3 Boat	7'/210 cm	XH	20-30lbs/150-400 g	3sec	-	76 cm	341 g	1
W320-0703-XXH	W3 Boat	7'/210 cm	XXH	30-50lbs/200-600 g	3sec	-	76 cm	341 g	1

A practical 3 section design makes this rod 'spot on' for all kinds of travelling, no matter if the destination is a Norwegian sea fishing camp or some tropical island. The Comfort Cross Gimbal is a great alternative to conventional 'stomach puncturing' metal or hard plastic gimbals. It fits perfectly into a fighting harness and even without a harness landing a monster or two is no problem. The LTS Low Rider guides are some of the toughest saltwater, boat guides around and the Torayca® blank offers superior strength and value for money.

- Reel Seat: Fuji® DPS
- Guides: LTS Low Rider
- Blank: Torayca® High Performance Carbon for superior action
- Special design Comfort Cross Gimbal (CCG)
- Premium grade EVA handle
- Reinforced with Kevlar Carbon

Saltwater, long hours of being stacked on the downrigger and enjoyable moments when forcing a large salmon to the boat, this is the essence of what the W3 trolling rods are designed to do. Besides the action, strength and backbone every angler will enjoy the design and details on these trolling rods. As with all Westin W3 rods these are quality specialist rods at prices that are hard to match.

₩ 6 FLOTATION SUIT

DS/EN ISO 12402-6

- Material: PU Coated 189Tx320D Taslon, taped seams
- DS/EN ISO 12402-6 certified
- 8 practical pockets
- Integrated light weight brace system
- High-viz, yellow fold-in hood
- K-webbing 64/36 reenforcement on knees and backpart
- Integrated adjustable neoprene belt
- Adjustable knee straps
- Front pocket Water-resistant "easy grip" YKK zippers
- Flexible light weight foam
- 3M Scotchlite reflective tape
- 6 "easy to access" pocket
- 2 fleece insulated pockets
- Neoprene sleeve cuffs
- Double adjustable leg cuffs
- Perfectly fit designed for the typical Scandinavian build
- Radio/phone pocket on shoulder (not waterproof)
- Efficient mesh drain by the cuffs and ankles
- Extra high collar with soft padding for optimized wind protection
- New, improved YKK main zipper construction

This flotation suit is designed and developed with a single purpose — to create the ultimate flotation suit by all measures. From the very beginning the suit is designed to fit and meet the demands of the typical hardcore angler. Safety, durability, practical details and a close fit that still allows the wearer to move around freely are all important characteristics of this suit. All are characteristics that you will appreciate every time the weather turns bad. Upon request from several sea fishing camps we have made a new zipper design on this suit by using the best available YKK zipper and making sure no part of the fabric can get trapped. All of this is done because we know that if a flotation suit can stand extensive rental use, it will withstand anything!

W 4 FLOTATION SUIT

The transparent 180° view window panels integrated in the hood, the extra high soft fleece collar and the easy access inner pocket are just some of the features anglers will appreciate on the W4 Flotation Suit. Quality and functionality were the main priorities when designing this suit, but of course our designers also took hard core fishing and sea angling into the equation. The brace will be highly appreciated on those calm, sunny days but it's when the going gets tough that important features like the very best waterproof materials, the right choice of buoyancy materials and a perfect fit really makes a difference.

• Extra high collar with soft fleece for optimized wind protection

₩ 4 WINTER SUIT EXTREME

on legs

Get suited up to fish all day in comfort with the W4 Winter Suit Extreme. Sub-freezing temps and cold winds have the tendency to put off a lot of anglers, but with the W4 Winter Suit Extreme you will stay warm and comfortable in even the worst conditions that the cold hearted winter can throw at you. Both jacket and pants are packed with all the functions and features demanded by die-hard anglers — warm, water- and wind-proof and with a breathable outer layer.

Pants

- TORAYDELFY® fabric waterproof: 10000mm breathability: 10000
- Material: 100% polyester
- SBS® front zipper
- \bullet 3 pockets with SBS® zippers
- Adjustable hem with Velcro
- Reinforced Cordura Kevlar kick panels at bottom of legs
- Ankle-to-knee leg zippers and snap-adjustable leg openings

Don't let rain keep you from fishing. The Westin W6 Rain Suit is water-proof and completely seam-sealed, yet breathable and comfortable to wear all day on the water. TORAYDELFY® waterproofing keeps you dry while allowing air circulation, moisture-wicking and release of excess heat during activity. An extra high collar with double bottom chin closure on the jacket provides extra coverage and the attached hood is ready for any sudden storm. Ankle-to-knee leg zippers on the pants combined with snap-adjustable leg openings for easy on and off over boots. Reinforced Cordura Kevlar kick panels at leg bottoms add hardworking durability. This wearable and specialized gear ensures you're able to take on any weather to chase fish.

W 4 SUPER DUTY SOFTSHELL

- Outer shell: 4-way stretch softshell with wind and water resistant TPU membrane
- Inner lining: Polar fleece
- Adjustable hood
- Adjustable hem
- YKK® front zipper
- 2 side pockets with SBS® zippers
- ullet 1 chest pocket with SBS® zipper
- 2 open inner pockets

Day or night, spring or fall, the W4 Super Duty Softshell Jacket is your best bet for warmth and protection from Mother Nature when you're on the water. Not too thick and not too thin, it's the perfect weight for cool mornings and crisp evenings when the bite is on. The tough, water-resistant softshell keeps fog and mist from penetrating your clothes, while soft fleece lining on chest, back and hood keeps you warm.

CRECRAW CREATUREBAIT

Code	Model	Length	Weight	Qty	Trade Unit
P151-XXX-130	CreCraw Creaturebait	8.5 cm	7 g	5 pcs	6
P151-XXX-010	CreCraw Creaturebait	10 cm	12 g	4 pcs	6

- Free from toxic phthalates
- Anise scent
- Weedless design
- Swimming claws
- Tentacles and cylinder-shaped legs
- Hook slots in the back and belly for EWG/worm and offset hooks, T&C rigging and normal jigheads
- Perfect for jigging, punching, flipping and more
- Stable action thanks to a wide design and swimming claws

A deadly bait for lethargic bass looking for an easy meal, the Westin Cre-Craw is part crawfish, part creature bait. Up top, its swimming claws move independently of one another, and start creating action as soon as the bait hits the water. Meanwhile, fluttering tentacles and legs create a life-like action teasing bass into a big bite. Its wide profile ensure the CreCraw

swims predictably in the water, avoiding unwanted rotation, while hook slots in the back and belly make rigging a breeze.

The CreCraw takes American action cues and combines them with Scandinavian lure design in one of Westin's most detailed soft plastics to date.

Code	Model	Length	Weight	Qty	Trade Unit
P153-XXX-158	Stick Worm	12.5 cm	10 g	5 pcs.	6

- Free from toxic phthalates
- Hook slots in the back and belly for easy rigging
- Weedless design
- Ideal for Wacky and Texas rigging, EWG/Worm hooks
- Nasty Worm Scent
- Full salt-infused heavy body for weightless rigging

Take a poll of the best bass anglers in America and they'll almost all tell you one thing - stick baits catch bass, period. And, hey, we love to catch bass.

An enhancement on the tried-and-true stick bait, the Westin Stick Worm

shimmies to the bottom thanks to a unique, V-shape body design. Two thicker middle sections ensure O-rings and hooks aren't going anywhere, while a heavy peppering of Nasty Worm Scent makes sure no fish - or human - can ignore the potent presence of the Stick Worm.

- Optimized super soft flexibility
- Floating perfect suspending action on a single hook
- Antennas for additional movements
- Several body segments to create a realistic movement
- Life-Like Lure
- Perfected for Dropshot nose hooking or wacky jigging

The humble bloodworm is part of the staple diet for just about every kind of fish – think of it as the bread and butter of the fish world. So, when we sprinkled some of our magic Westin-dust on this iconic bait, you can expect it to be a fantastic fish catcher.

BloodTeez, a supersoft, flexible and incredibly life-like soft lure that has been pumped up in size and made way more durable than the real thing – meaning you can catch more for longer.

Once you've cast it, let it sink to the bottom and give the rod a gentle shake before letting the line slacken. Once it's back on the bottom, fish it however you want – a slow or fast jig will bring you success. The lure is primarily designed for dropshot nose-hooking or wacky rigged but can also be used with a micro jighead for street fishing styles.

So, what are you waiting for? Get yours today and let the blood flow!

Code	Model	Length	Weight	Qty	Trade Unit
P002-XXX-018	MiniTeez V-Tail	13 cm	11 g	5 pcs	6

- V-tail design
- Double-layer life-like scale pattern
- Optimized flexibility
- 3D ghost eyes
- Perfected for drop shot
- Air chamber balance point

When used on a drop shot rig an interior air chamber will make sure Westin MiniTeez is held in a perfect horizontal position. When rigged on a jig head the body will be elevated from the ground like a baitfish feeding on the bottom. The V-tail design is perfect for fishing the MiniTeez with very discrete and subtle movements known to produce big fish in cold water and on tricky days.

P129-XXX-010	HypoTeez V-tail	10 cm	5 g	3 pcs	6

- Optimized flexibility
- Forked V-Tail
- Life-Like Lure
- Hand painted detailed colors

The HypoTeez V-Tail is a hybrid between the immensely successful HypoTeez ST and the good old zander lander, TwinTeez. Bringing the best of two worlds, this sublime vertical softlure can tease even the finnickiest of perch, zander, bass and it will look awesome in your tacklebox to. Hy-

poTeez V-Tail feature extremely life like details, flexible fins and scale patterns and its softness will ensure a reaction to the slightest twitch from the rod tip. The lure can be fished as a traditional bottom vertical jig or on a dropshot rig.

TWINTEEZ V-TAIL

Code	Model	Length	Weight	Qty	Trade Unit
P006-XXX-021	TwinTeez V-Tail	15 cm	14 g	5 pcs	6
P006-XXX-035	TwinTeez V-Tail	20 cm	32 g	4 pcs	6

- Forked twin-tail
- Optimized flexibility
- Interior chamber for rattle stick
- Pre-shaped front to fit Westin jig heads
- Two rattle-sticks included
- Glass/steel rattles for best acoustics

This fork tail body is ideal for vertical fishing. It has the perfect softness and movement to tease any old zander and to react on even the slightest twitch of a rod tip. The pre-shaped front makes it easy to fit onto a Westin RoundUp or ThouchDown jig head. Westin TwinTeez has an interior,

horizontal chamber to hold one of the glass/stainless steel rattle-sticks included in the package. Compared to ordinary rattle-sticks the glass rattles maximizes the rattle acoustics.

TWINTEEZ V2 V-TAIL

Code	Model	Length	Weight	Qty	Trade Unit
P149-XXX-157	TwinTeez v2 V-Tail	14,5 cm	9 g	Box w. 40 pcs	1

Version II of the legendary TwinTeez is packed with new features to improve your odds. We have added a realistic head with gill details for a more natural look and the oversized eyes act as a strike point for big mean predators. TwinTeez V2 is equipped with a slim V-shaped head design so it cuts the water and drops faster to the fish you are targeting.

- V-Tail design
- Specially designed for bottom vertical fishing
- Hook slot in belly
- Optimized flexibility
- Realistic oversize eyes

V-Tail design for delicate presentation with small shakes or twitches. The TwinTeez V2 is specially designed for bottom vertical fishing for zander, perch and pike, but try it on tricky pelagic fish or on a dropshot rig and a small stinger – deadly!

CURLTEEZ CURLTAIL

Code	Model	Length	Weight	Qty	Trade Unit
P109-XXX-005	CurlTeez Curltail	7 cm	3.5 g	3 pcs	6
P109-XXX-130	CurlTeez Curltail	8.5 cm	6 g	2 pcs	6

- Optimized super soft flexibility
- Realistic eyes
- Easy action curltail
- Slim body design with great belly flash
- Slots in back and belly for offset rigging and great penetration
- Hand painted detailed colors

A curly tail on a soft lure is nothing new, right? Wrong! We've pulled out all the stops to make this CurlTeez lure, one that you always want in your tackle box. The slim body profile perfectly mimics a baitfish and the tail springs into life on the slowest retrieve you can imagine, or on a fast wind back when you are trying to cover plenty of ground. Besides looking like an all you can eat buffet to hungry predators, the tail on this lure

has another smart feature – it has been turned to point downwards so that when close to the bottom it kicks up gravel, silt and makes a whole lot of noise. Any fish who didn't know dinner was served will know within seconds! CurlTeez can be rigged with a normal jighead, or on a dropshot rig and Texas or Carolina style, due to the slots in the back and belly. Whatever you choose, be ready to catch a big one.

RINGCRAW CURLTAIL

P152-XXX-008

- Free from toxic phthalates
- Anise scent
- Salt-infused belly for stable action
- Double curltails with paddle tips, perfect action at all speeds
- Hook slot in the back

 Turbulence ring design Optimized flexibility Realistic eyes

Easy actions tails

Great hook-up ratio

The RingCraw combines a fantastic action with great water displacement, enticing crawfish profile, and anise scent attractant. Jig it or rig it and hold on tight! You'll have the bass, perch and other crawfish loving predators fighting over this bait. Infused with a tasty dose of salt in the belly that causes fish to bite and not let go, but also gives the bait a balanced swimming action. The RingCraw features a stocky deep-ribbed body and double curltails with paddle tips for consistent, subtle action even at very slow speeds, and open ribs on the back for streamlined rigging. Westin's level of detail is unmatched in this bait. The profile and action will attract plenty of attention, even in heavy cover.

Wherever it goes, it creates a stir! The protruding bands on the RingTeez cause tempting vibrations in the water and attract any bass, perch or zander within range. Once they've spotted it, the vibrant colours and wacky tail-action are designed to mesmerize them into taking. Rig it any way you like to suit the conditions - regular jigstyle, dropshot, Texas or Carolina style - it's gonna bring you some serious fish.

- Life-Like Lure
- Realistic Eyes
- Easy action paddle tail
- Hand painted detailed colors

ZanderTeez has a unique mix of fish-catching features. The shad tail with a slender wrist in combination with the body shape gives two swimming actions in one bait. The tail is kicking fast from one side to another while the body is moving slowly in a rolling belly-flashing swimming action. A

super-hot and deadly action! If that's not enough, the life-like imitation of a zander, the realistic eyes and hand painted color details will do the trick. Perfect for spin fishing and vertical jigging for predators like perch, zander and pike.

- Optimized flexibility
- Realistic eyes
- Easy action shad tail
- High body profile with great belly flash
- Hand painted detailed colors
- Blister pack

Watch your speed with this incarnation of Ricky the Roach - the shorter tail allows a smooth and slow glide through the water, while the big shad tail offers a faster and more erratic action. Whatever you choose, this lure bursts into action as soon as it hits the water and has a tight rolling body action.

It looks just like a real roach - in fact, some coarse fisherman would be happy to catch this little guy, so the predators will love to eat him. Perfected for jigging and casting for predators like perch, zander and pike.

KICKTEEZ SHADTAIL

Code	Model	Length	Weight	Qty	Trade Unit
P150-XXX-021	KickTeez Shadtail	15 cm	10 g	Box w. 45pcs	1

- Easy to rig jig-hook notch
- Unique stinger channel
- Vertical hole from back through belly
- Improved hook up
- Realistic eyes
- Natural swimming action due to special curved shadtail
- Works in stillwater as well as strong current, the tail will not twist
- Can be used for different jigging techniques from bank or boat

Kick-start your predator fishing with the Westin KickTeez Shadtail – a super effective soft lure that is so easy to rig, it almost makes fishing too easy. The lure features a unique inner channel for both jighead hook and stinger which gives you added stealth and a far more natural presentation and swimming action. The lure also features a vertical hole that goes from the back and through the belly, the KickTeez will easily bend when the fish

strikes, ensuring better hook-ups! It swims brilliantly in any water, still or fast current. Zander, pike, perch and sea bass won't be able to resist this amazing looking lure and they won't be able to let go once they bite down on the well-concealed stinger. Fishing a soft lure couldn't be easier, or more deadly!

Hypnotize them with HypoTeez. Named after the Latin name of the smelt (Hypomesus Olidus), this lovingly hand-painted little critter looks so much like a real smelt its mother couldn't tell them apart. Cast it out and it

starts swimming as soon as it hits the water. And as it wiggles past those monster perch and hungry zander, fixes them with its realistic fishy eyes and outstanding swimming action, they're going to be helpless to resist.

Based on the hugely successful Westin Hypoteez, this new version of one of our most popular soft lures features an extremely life like, tight and erratic swimming action thanks, in part, to its extra inch in length. The lure can easily be fished close to the surface when shallow rigged, or right down in the depths with a jighead. Its impressively realistic fins and belly fins may fool you into thinking you're fishing livebait – and the predators too, they won't be able to resist.

BULLTEEZ SHADTAIL

Code	Model	Length	Weight	Qty	Trade Unit
P143-XXX-163	BullTeez Shadtail	9.5 cm	7 g	2	6

- Realistic Eyes
- Easy action paddle tail
- Seducing wriggling and belly-flashing action even at low speed
- Slots in back and belly for offset rigging
- Hand painted detailed colors

Want to catch a big one? Then the BullTeez is the ultimate choice for big predators like pike, zander and perch. The shad tail in combination with a slender wrist creates a seducing wriggling and belly-flashing action – even at low speed. Just this wriggling movement attracts and fools the really

big fish into attacking the lure. BullTeez can easily be fished with shallow rigs or right down in the depths with a regular jig head. For weedless presentation with a big offset hook we have equipped the Bull Teez with slots on belly and back. Perfect for fishing into the reeds!

This slim and slender lure is sure to have your target fish drooling with its enticing wriggling action that is incredibly effective at many different retrie speeds. It is a smaller brother to the existing 22cm and 27cm versions of this lure, but its small size gives it a little more versatility. Hungry

predators will simply inhale the lure, giving you more guaranteed hook-ups. Rigged on a light traditional jighead or on a dropshot rig, this lure can offer you a lot.

SWIM HOLLOWBODY

Code	Model	Length	Weight	Density T	rade Unit
P113-XXX-131	Swim Hollowbody	9 cm	17 g	Floating	4

- Material: Soft Plastic
- Excellent collapsibility
- Topwater lure
- Ultra sharp Carbon Steel double-hook
- Weedless design
- Superior silicone skirts
- Walk-the-dog action
- Hand painted detailed colors

What happens when you combine one of our most versatile and well-loved lure shapes and make it a hollow topwater lure? NON. STOP. ACTION. That's what! Swim Hollowbody is packed with features - like a weedless design, an attractive silicone skirt, and hand-painted details - and is so easy to fish, even your worst fishing buddy will have success with it. Swim is easy to fish with a simple walk-the-dog retrieve right on the surface. You can also jerk it down below the surface - keep good line tension and work with

your rod to create an erratic swimming pattern.

The Swim Hollowbody benefits from a custom-made rubber ring designed to stop water entering the hollowbody - eliminating one of the most common frustrations with this type of lure. This Swim may be soft, but he's tough and he's ready to rumble with monster bass and other predators around.

DANNY THE DUCK HOLLOWBODY

Code	Model	Length	Weight	DensityTrade Un	it
Po69-XXX-008	Danny the Duck Hollowbody	9 cm	18 g	Floating	4

- Material: Soft Plastic
- Top Water lure
- Ultra sharp Carbon Steel, wide-gap double-hook
- Weedless design
- Life-Like Lure
- 180-degree swing when twitched
- Hopping action with bubble trail
- Soft feets for enticing underwater action
- Hand painted detailed colors

Danny the Duck in the hollow body version the perfect weapon for big mean bass. They will go crazy for this baby duckling! Super weedless design to be fished in heavy cover. Just imagine a big bass inhaling Danny in front of you! If you twitch him, Danny will swing out 180-degrees in tight short swings and stays long on the hot-spot, fish him fast or slow, either way you can create that hopping action with a unique bubble trail just

like a fleeing duckling, the beak will also add a unique front splash, don't forget the pause! The small soft feets adds extra attraction fluttering below the surface. This is such a cool and fun lure to fish with. Thanks to the hollow body Danny will collapse around the double-hook with high hook up ratio. Nasty predators are waiting for soft Danny, dead or alive! Quack quack!

P112-XXX-134	Freddy the Frog Wakebait	9/18.5 cm	46 g	Floating	4

- Material: ABS plastic
- Topwater lure
- Ultra sharp carbon steel hooks
- Belly treble hook: #1/0 (18.5 cm)
- Customized and reinforced single hook in tail for improved hook up ratio
- Additional belly eyelet for change of hook position
- Body length: 6 cm / 9 cm
- Total length: 13 cm / 18.5 cm
- Ultra Sonic Glass Rattle inside
- Single joint body
- Multi jointed kicking legs
- Hand painted detailed colors

In France, frog legs are a delicacy - on our latest lure creation, they are a work of art! Freddy the Frog comes hopping onto the scene as your new favourite topwater bait, with a crazy, crawling action and those free-moving, jointed legs that will stir curiosity in the most cautious of predator fish. His sexy moves on the surface are complemented by a glass rattle stick with internal steel balls that announce to

every predator within the vicinity that frog is back on the menu. Just a simple cast-and retrieve method will bring some incredible surface action - we spent a long time perfecting the action of this lure and then perfected the lure with a great hook-up ratio and a range of realistic and detailed colours and patterns. Freddy is ready to take on the big predators of any water.

What would you say if we said we'd given HypoTeez a twist - literally? The HypoTwist is a super-realistic topwater hard lure based on that old favourite, but with a separate soft shad tail that has incredible movement the second it hits the water. The fact it's rotating at the back of this lure also helps to create a real racket on the surface, causing plopping sounds

and disturbances that will stir the predators lurking below. You can fish HypoTwist fast or slow and with pauses if you like – it's a versatile snack that big bass, pike, perch and other surface hunters will love. Try it out and be ready for a blow up like never before.

- Lead free construction
- Inline rigging system
- Running depth 1-3 m

He glides to the left, he glides to the right, that HypoTeez lure makes the big fish bite! This version of a Westin favourite has an unrivalled side to side kicking action and is perfectly balanced to stay right in the strike-zone for big bass and pike.

What is great about this HypoTeez glide bait despite its stunning good looks

and amazing colours, is the versatility. Whether he is on a steady retrieve, variable speed with spin/stops or being walked, he looks like an all-you-caneat buffet for predator fish of all different kinds. With a medium retrieve he even creates a wake on the surface — a deadly secret weapon that is bound to hypnotize them!

Code	Model	Length	Weight	Density	Trade Unit
P032-XXX-007	RTR Swimbait w. Lip	8 cm	7 g	Sinking	4

This little hard nut takes on the toughest predators and wins every time. Small, but perfectly proportioned, and so realistic even a mother roach could love it. Little Ricky differs from his bigger, hybrid brother in that it's hard through-and-through, with four reticulated joints to get him swimming in that tantalising Westin S-shape. It's stunning when spin fishing

- just twitch it with regular stops to create an irregular action, get those joints clacking and bring in those hungry predators.

Comes in several irresistible colours, from realistic to the sharper, brighter trigger colors, all hand painted down to the smallest detail.

RICKY THE ROACH SWIMBAIT

- #1 / #2 carbon steel hooks
- Realistic SemiSoft fins
- Westin S-Shape swimming action
- Clacking joints
- Life-Like Lure
- Hand painted detailed colors

Ricky is sick of getting eaten. So he's gone away and returned with a new, tough, hard lure body to put off those hungry predators. The bad news for him is he's made himself even more irresistible.

His realistic body joints create an amazing swimming action and a clacking sound that stirs the interest of big pike, perch and bass. Ricky also has semi soft fins to further add to his visual appeal.

An incredibly easy lure to fish – you just need to cast Ricky out, then fish him at the desired depth in a steady retrieve. Try adding some occasional stops and vary your speed to trigger strikes from more wary predators. So, bad news Ricky. You tried, but you're now just an even tastier snack for the big mamas!

- Material: ABS Plastic
- Lead free
- Running Depth: 0.5-1.5 m
- # 1/0 Carbon Steel Hooks
- Optional eyelets (Top: tighter S-Shape action Front: more rolling action)

MIKE THE PIKE SWIMBAIT

Code	Model	Length	Weight	Density	Trade Unit
P035-XXX-042	Mike the Pike Swimbait	22 cm	80 g	Sinking	4

There are few sounds better in pike fishing than the smashing of this super predator's teeth against a hard lure — and Westin will help anglers to hear this beautiful sound with the introduction of a hard lure/swimbait edition of its incredible Mike the Pike. Perfect for trolling and casting, this sinking lure is arguably one of the most realistic imitation

pike hard baits ever made – triggering the natural predatory instinct of these freshwater crocodiles. Its slow-roll swimming action is exactly the kind of movement that stirs big pike into moving in for the kill. Made in sizes and colours to attract the big mothers, this lure is great for typical, shallow pike waters.

Concealed Fish+

• Running depth: 0-1 m / 0.5-2 m / 1-3 m

The original Westin Swim Glidebait is a well established favorite amongst the pro guides, who are confident that all of their clients can easily cast and catch fish with it – it's as simple as that! You can fish this multi purpose bait with "pull and wind" or on a steady retrieve, slow or fast, to create the action of a wounded, panicking baitfish and the panic can be increased with faster retrieves and reg-

ular pauses. As soon as the reel starts turning the unique S-curve swimming action of the Westin Swim will give you the very best odds. A wide selection of sizes, sink rates and proven colors makes the Swim a versatile fish-catching machine. Westin Swim – your secret weapon.

Code	Model	Length	Weight	Density	Trade Unit
P039-XXX-012	Percy the Perch Crankbait	10 cm	20 g	Floating	4

Small yet mighty - Percy the Perch's harder brother is a big fish catcher with a serious attitude problem.

Designed to be a near perfect copy of the real thing, Percy has a fantastic swimming action that is so good, it will probably scare the life out of smaller silver fish in the area as well as attract the larger predators looking to make the hunter become the hunted. The lure has a sharp and aggressive swimming style, which perfectly mimics a perch and also creates disturbance in the water to attract the attention of hungry monsters.

P040-XXX-020	Mike the Pike Crankbait	14 cm	30 g	Floating	4

Get ready for an explosion from below as big predators rise to smash the floating Mike the Pike hard lure - arguably one of the most realistic pike imitation hard lures ever created. This lure has got the attitude to take on the biggest predators out there. Mike has a super aggressive rolling action and is ideal for both casting and for trolling. It sits high in the water, just screaming out to pike and other predators that an easy meal is in the area. Made in sizes and colours to attract the big mothers, this lure is great for typical, shallow pike waters.

- Hook size: #2 / #1/0
- Ultra sharp and strong treble hooks
- Running Depth: 2-4 m / 2-6 m
- Full wire-through-body construction

Jätte 17 cm

The Famous "Westin roll" – the unique rolling movement of these predator lures – is the trademark of Westin Jätte. It has an almost magical effect on pike that seem to ignore other lures. Days and years of carving, adjusting and testing was used when the Westin family created their first lures with this superior rolling action. For many years the 17 cm Westin Jätte has been a "must" in the lure box selection of any Scandinavian big pike hunter. It is perfect for depths between 2 and 4 meters and it has exactly the same "Westin roll" as the first lures created many years ago.

Jätte 23 cm

This old legend needs no further explanation. In Scandinavian mythology a Jätte is a giant. This old giant wobbler has always been one of the most consistent big pike catchers, as well as one of the most popular lures in many parts of Scandinavia. It is the perfect big fish trolling lure and through the years Westin Jätte has accounted for a staggering amount of 10 kg + pike.

BASSBITE SQUAREBILL

He's fat, he's grump and he's about to get bitten - FatBite is the ideal shallow running hard bait for a wide variety of species. Perch, bass, pike and trout will be queuing round the block to sink their teeth into this little fatty, thanks to a large profile and a violent rolling and shaking action. He's also a lure who wants everyone to know how grumpy he is - internal ultra sonic rattles make a big disturbance. This lure comes into its own on shallow waters, smaller ponds and canals and quickly charges to the surface when carrying out a spin-stop.

- Realistic eyes
- Hand painted detailed colors
- Running depth: 0.5-1.5 m, 1-2 m & 1-2.5 m

The deadly BuzzBite are some of the hottest crankbaits to hit perch fishing in a long time. All the key features are here - a tight wobble, quick-diving without pulling hard, a highly detailed design, quality components, and realistic eyes. Its neutral buoyancy allows you to pause your retrieve and let the lure suspend in position, increasing its appeal to wary fish. Almost silent with a high-frequency rattling action adds to the fish-catching attraction. Monster perch will practically be throwing themselves at your bait! Designed for perch and trout fishing but equally deadly for zander and pike.

NEW

- Material: ABS Plastic
- Lead free
- Running depth: Floating 1-2m
- Ultra sharp and strong treble hooks
- Low frequent sound
- Wide aggressive swimming action
- Wide body profile
- Hand painted detailed colors

BullyBite will have more friends than any bully you ever knew at school thanks to his bullet-like casting ability, wide aggressive swimming action and low frequency sound. All this combines to make a lure that perch, bass, zander, trout and just about any other carnivorous fish out there,

won't be able to resist. BullyBite is just at home with a simple cast and retrieve or with occasional spin stops, and even aggressive jerking. He's a bully, he can handle anything...

Our super-effective RawBite hard lure has a little brother - the 7cm version of this killer lure has a tight and erratic action that makes it perfect for triggering the intrigue of perch. This wee version of a classically styled lure is hand-painted in a variety of realistic and 'far out' colour options

giving you plenty of choice. He may be smaller than his brother, but this RawBite is a grumpy and aggressive little fellow with bags of attitude and perch-catching prowess.

RAWBITE CRANKBAIT

RawBite has a tight vibrating wobbler action that drives predators wild! Its chubby little profile looks like a nice easy snack as it limps and twitches out of the gloom, and up close, its ultrasonic siren song makes them open their mouths in awe and take the bite that seals their fate. Perfect for trolling or casting for big, nasty pike, zander and other predators, the $\,$ RawBite sports an integrated long cast system, where the steel ball moves to the tail to aid long casting and settles back into the belly when it starts to fish, to give it an irresistible swimming action.

- Lead free construction
- Hook size: #4
- Ultra sharp and strong treble hooks
- Running depth: 1-2 m
- Ultra Sonic rattle balls
- Realistic eyes
- Integrated long cast system
- Hand painted detailed colors

Inspired by the famous Westin Platypus lure – loved (and hated) by big predators the world over, this little beauty is so detailed that Mother Nature herself is taking notes! With an integrated long cast system - the two steel balls drop into the tail when casting to help you launch it to the horizon, and settle into the belly when swimming to draw those big, con-

fused predators in. With its cocky little swimming action it'll get right up the nose of the biggest perch, zander bass and pike – triggering an angry snap just because it's there - and whenever you stop the retrieve, it stays right there in the strike zone, driving them wild with anger!

After 32 different prototypes and countless hours of testing and adjusting lure designer Allan Christansen created the first original Platypus lures in 160 and 190mm. These versions are the smaller lures in the Platypus family. As the larger family members this lure features one of the best rolling and belly-flashing swimming actions ever seen on a lure. Another great feature is the Westin Optic Eyes made from colored optical fiber to create a unique - almost illuminating - light reflecting effect.

- Ultra Sonic rattle ball
- Full wire-through-body construction

The Platypus lures designed by Scandinavian lure maker Allan Christiansen have become Scandinavia's leading big pike lures in no time. Numerous requests from pike specialists made us design slow rising, low floating models. When constructing these, a lot of attention was put into achieving the correct buoyancy. At a stop in the retrieve, these Platypus lures will hang and slowly rise in the water - an extremely persuasive trick when it comes to large, tricky predators.

"It took me 32 different proto-types and countless hours of testing and adjusting to achieve what I was looking for. The result is a unique lure with an incredible action and swimming pattern - even when fished at extreme slow speed for tricky pike during the coldest part of spring. When fished at high speed the action of the lure is just as incredible. Tight Lines". Allan Christiansen

RICKY THE ROACH HYBRID

Code	Model	Length	Weight	Density	Trade Unit
P058-XXX-025	Ricky the Roach Hybrid	15 cm	36 g	Low Floating	4

You can fish him as if he hasn't got a care in the world, or as if he's in a fearful flap. Either way, Ricky is the most-wanted roach in the water. Predators are drawn to his positive swimming action, and driven wild by his trembling fins. Poor old Ricky triggers a bite wherever he goes.

PERCY THE PERCH HYBRID

Code	Model	Length	Weight	Density	Trade Unit
P059-XXX-039	Percy the Perch Hybrid	20 cm	100 a	Low Floating	4

- Lead-Free
- Ultra sharp and strong treble hooks
- Running Depth: 1-3 m
- Slide Lock Easy To Change Connection
- Full Eyelet-To-Hook Wire Connection
- Interior chamber for rattle sticks

The hunter becomes the hunted. With his wickedly flexible, jointed body and kicking waggle lip, Percy has a teasingly aggressive swimming action that attracts big predators from afar. Once up close, the fluttering fins are more than instinct can stand - they can't help but bite!

HYBRIDS 104

TOMMY THE TROUT HYBRID

Code	Model	Length	Weight	Density	Trade Unit
P060-XXX-025	Tommy the Trout Hybrid	15 cm	37 g	Low Floating	4
P060-XXX-047	Tommy the Trout Hybrid	25 cm	160 g	Slow Sinking	4

Lead free

- Hook size: #1 / #3/0
- Ultra sharp and strong treble hook
- Running depth: 1-2 m / 2-5 m
- Slide Lock easy to change connection
- Life-Like Lure
- Full eyelet-to-hook wire construction

There's nothing like a big, fat trout to fill up the stomach of a big predator. It's a known fact that predators grow real large when feeding on trout and several record monster pike and other predators are actually made in trout waters. In other words Tommy the Trout is the ultimate prey from the moment he leaves the tackle box and hits the water.

This Westin life-like lure is an amazing down-to-the-smallest-detail imitation of real prey. It comes with two optional eyelets. Use the front eyelet

to achieve a shallower running depth or the top eyelet for a deeper and more aggressive swimming action. The detailed pectoral and pelvic fins have a flapping action in the water and will trigger more bites. Finally the low floating buoyancy will make the lure rise slowly towards the surface during a pause in the retrieve. This natural looking, 'giving-up-all-hope' action will help you catch more fish.

MIKE THE PIKE HYBRID

Code	Model	Length	Weight	Density	Trade Unit
P061-XXX-031	Mike the Pike Hybrid	17 cm	42 g	Slow Sinking	4
P061-XXX-040	Mike the Pike Hybrid	20 cm	70 g	Slow Sinking	4
P061-XXX-049	Mike the Pike Hybrid	28 cm	185 a	Low Floating	

- Hook size: #2 / #1 / #3/0
- Ultra sharp and strong treble hooks
- Running depth: 1-3 m / 1-3 m / 2-4 m
- Slide Lock easy to change connection
- Life-Like Lure
- Optional eyelets for shallow or deep water use
- (only on 28cm)
- Full eyelet-to-hook wire construction

Pike are the ultimate cannibals — why compete with other natural-born killers when you can simply eat them? Mike the Pike is designed to be the ultimate prey for the meanest alpha predators out there. Amazingly life like down to the smallest detail. The detailed pectoral and pelvic fins flut-

ter in the water to trigger more bites. And with his low buoyancy, he rises slowly to the surface when you pause the retrieve. A natural-born killer.

Sometimes you don't know exactly the tactics you'll need to land a big predator, and that's where the new HypoTeez ST R 'N R comes in. This is the perfect 'search bait', one that is just at home fooling big bass as it is fooling big pike. This little badass isn't scared of any fish with teeth. It features a tight, erratic swimming action and the usual impressive and realistic details and fins that the HypoTeez range has come to be known for. Trust us when we say, you may wonder how you fished without a couple of these in your tackle box.

HYPOTEEZ BUZZ 'N BLADE

Code	Model	Length	Weight	Density	Trade Unit
P062-XXX-026	HypoTeez Buzz 'N Blade	16 cm	38 g	Sinking	4

When predators sink to the deep, change your armory and take them on with the new HypoTeez Buzz 'N Blade. This Rigged 'N Ready variation of the hugely successful HypoTeez is easy to cast and quickly sinks to the depths where it can work its magic. With a simple retrieve, the lure wiggles its body and buzzes its propeller and blade until... STRIKE! Thanks to the balanced weight in combination with the propeller and blade which

works as a break it's always sinking at a 45 degree angle. Meaning the propeller and blade have two purposes, creating vibrations in the water as well as keeping the HypoTeez in strike position!

This bigger version of the normal HypoTeez features the same ultra-realistic Smelt design and is perfect for a wide array of predators.

Spot-On Topwalker

Weight Density

15 g

Floating

- Lead free
- Material: ABS plastic
- Ultra sharp and strong carbon steel hooks
- Over-sized realistic eyes
- Foiled inside on selected colors for a 3D look
- Elevated ribs to create turbulence
- Nose Scoop
- Full wire-through-body construction
- Low frequent knocking sound
- Hand painted detailed colors
- Long casting design
- Easy walk the dog action

This powerful top water bait takes the learning curve out of walking the dog, and it packs decades worth of fish catching experience into subtle features that increase your odds of landing the big one. A life-like fish patterned body pairs with oversized, realistic eyes for the right look to lure in bass, snook, perch, redfish and seabass. Elevated ribs create ex-

10 cm

tra surface turbulence. A unique nose scoop creates a finessed pop to tempt timid predators, much more subtle than the traditional popper. The Spot-On Top Walker's V-shaped body creates stability in the water paired with a low-sitting tail that increases hook-up ratio!

Be careful when tying this lure onto your line, he's such a life-like crab that he may give your fingers a little nip! Of course we're kidding, but Coco the Crab is a HUGELY realistic crab lure – made from a 3D scan of the real thing.

We spent a huge amount of time researching real crabs from around the world to create this lure and the wide range of amazing trigger colours and patterns it is available in.

When fished along the bottom, the defending foam claws rises above the crab's body and the semi-soft, realistic legs add balance and realism. It can also be fished easily in mid-water. It features a tungsten belly that means he always lands the right way up and makes Coco a lead-free warrior! Fish him slower with gentle twitches or jig him fast and work with short distinct movements and be ready... Coco is the perfect snack for a wide range of both salt and freshwater predators!

SALTY THE SHRIMP HARDLURE

Code	Model	Length	Weight	Density	Trade Unit
S071-XXX-068	Salty the Shrimp Hardlu	re 8 cm	20 g	Sinking	4

- Material: ABS plastic / zinc
- Lead free
- Ultra sharp and strong treble hooks
- Stay On double spilt ring hook mount
- Unique two-way action
- Life-Like lure
- Hand painted detail colors

What's the best way to make a shrimp imitation lure? A 3D scan of a real life shrimp, of course! That's what we did when creating Salty the Shrimp, — an awesome hard lure designed with Scandinavian seatrout in mind, but works equally well with seabass, trout and even freshwater predators like perch.

The head is designed as a flat surface, which works in the same way as a wobbler lip, creating a tight and erratic swimming action. The hook

is located at the tail end to further enhance the aggressive swimming action – however, you can easily switch the hook to the head end if you want longer distance casting or a calmer, side-to-side swimming action. Salty the Shrimp comes in an array of badass color variations for different situations, all of which are hand painted. Fish him fast or slow, but whatever you do, be ready! He wobbles almost the second he hits the wet stuff, so be prepared to catch some fish.

The original Westin Swim Glidebait has many benefits – a compact shape, a realistic baitfish imitation design and the ability to cast like a bullet through the harshest wind. These benefits, while awesome for freshwater fishing, make the lure a perfect candidate to be a saltwater champion – so that's exactly what we did. This saltwater edition of the Swim is designed to target saltwater trophies like Redfish, Snook, Striped Bass, GT's and many more, thanks to some new saltwater-specific paint jobs and new

extra strong hooks and split rings.

The Swim is so easy to use, anyone could catch monsters on it. You can fish the Swim with "pull and wind" or on a steady retrieve, slow or fast, to create the action of a wounded, panicking baitfish and the panic can be increased with faster retrieves and regular pauses.

This salty cousin of one of our most successful lures just opened up a whole new world to saltwater anglers.

118

After 32 prototypes and countless hours of testing and adjusting lure designer Allan Christansen created the first original Platypus which bebecome Scandinavia's leading big pike lure in no time. This new Platypus SW (saltwater) version for warmer destinations is a tougher, harder and faster member of the Platypus family. Specially design for high-speed saltwater

trolling. It's a high floating lure with a deep diving lip meaning it still 'shakes it' at speeds up to 13 knots! Made of super strong Polycarbonate (also used for safety googles, cockpit canopies etc.) Toss this tough guy overboard and let it do its thing!

We have created a jig lure for saltwater species that is simple, beautiful and gets the job done. Whether you're targeting seabass, mackerel, barracuda or amberjack, this baby can be used to catch them in a variety of ways. Spinning, vertical jigging, jigging and slow jigging all produce results with Salty thanks to its flattened and curved body profile. It is

equally at home splashing in the shallows or diving into the depths and promises to reduce lost fish thanks to a reinforced single hook and double split rings that allow it some movement when a big one strikes. Salty is a no-frills, fish-catching favourite that you need in your tackle box.

SEA HARDLURES 119

Glowing Shrimp S110-363-006 9 g S110-363-010 18 g

Before you get carried away, no - we are not now selling live baits. This is a lure - Salty the Shrimp R 'N R, to be exact, and the reason he looks so much like the real thing is because he is made from a 3D scan of a live shrimp. His fluttering legs, natural whiskers and multi-jointed tail section all seem to move independently as this slow-sinking lure makes it way down in the water.

He's not a fussy kind of guy, he works just as well with saltwater species like redfish, cod, flounder and seabass as he does with freshwater predators like bass and perch. Cast and retrieve him close to the bottom in either of these situations with the occasional rod twitch to get him dancing and pretty soon some big, hungry predators will join him on the dance floor - his days are numbered!

Code	Model	Length	Weight	Qty	Trade Unit
S122-XXX-007	Salty the Shrimp Jig	8 cm	18 g	1 head 2 bodies	4
S122-XXX-143	Salty the Shrimp Jig	11 cm	28 g	1 head 2 bodies	4

- Lead jighead / soft body
- Life-Like Lure
- Ultra sharp and strong sea fishing hook
- Hook size: Single #2/0 / #3/0
- Interior hook channel for easy rigging
- Keeper system great grip and less damage
- Soft legs for fluttering action
- Natural whiskers
- Hand painted detail colors
- Package contains 1 jighead, 1 natural- and 1 paddletail body

No need to waste your time chasing live bait. This shrimp is made from a 3D scan of the real thing! Salty the Shrimp is specially designed for inshore saltwater fishing. Weed, grass and sandy areas are where he comes to life. Comes rigged with a natural shrimp body and a different replacement body with a paddletail. Two lures actions in one! What fish doesn't fancy a shrimp? You can throw this one for Snook, Redfish, Trout or whatever is hungry in the area. With the natural shrimp body you can fish it slow crawling on the bottom and the soft legs will flutter and really create that realistic action of a real shrimp.

Motoroil S122-270-007 18 g S122-270-143 28 g

S122-363-143 28 q

It can also be fished by jigging it fast or slow and adding extra action while working with your rod tip. Thanks to the interior hook channel you can easily change the body in seconds with perfect rigging every time. The paddletail offers you more action, classic jigging stop and go jigging technique along the bottom or you can fish it on a steady retrieve. The paddle vibrations along with the soft fluttering realistic legs will trigger a strike from any trophy Snook under the dock lights!

Fish the Magic Minnow from the shore or boat, fish it fast, slow, on a steady retrieve or jigging — with a weedless design and great action at all speeds. The super soft body of the Magic Minnow gives the lure a life like and natural swimming action with lots of vibration. The unique rigging system is fast and easy — you change the body in seconds. The Magic Minnow is the perfect lure for sea bass and other saltwater species.

Rigging: Press the soft body onto the jig head, mount the hook on the head with a firm grip so it "clicks", insert the hook through the vertical hole and let it rest in the hook slot of the back, apply one drop of super glue and press together. Ready to go!

He's small, he's sandy and he's definitely handy. This mini version of Sandy Andy – our ultra-realistic sandeel lure – is here with a life like swimming action and two different weights to give you versatility. Andy's small size allows you to fish him in multiple ways including jerking, darting, a steady retrieve or a simple jig and sink – whatever way you choose, he is guar-

anteed to have the predator fish feeling hungry. This lure's pre-moulded jig mounted with an extra sharp sea hook is available in either 5 grams or 7 grams and its soft, replaceable bodies mean you get great hook holds when you strike. Seabass, mackerel, horse mackerel, wrasse and even small tuna will be queuing up to get their teeth into this one.

When the big halibut and huge cod are proving tricky and hard to tempt give daisy a little jig and your chances will seriously pick up. She has an insanely sexy movement and swimming pattern - even fished slowly. Based on juvenile saithe - the favourite fish supper for the big trophy specimens hunting the seas and shores around Norway. We've included two different bodies - the curltail for a smooth, wormlike swimming

action (even at the slowest speed) - and the paddletail for that "takeme-now" wounded-panicky-fish action. We've spent years testing and perfecting the movement, trying out every possible change in shape, size and weight distribution. The experienced guides from Nordic Sea Angling who tested it now think we've succeeded - and some scarily big fish agree!

- Designed for huge cod
- Active eyes
- Durable painting
- Ultra sharp and strong sea fishing hook
- Hooks: Single #10/0, Treble #3/0 (480 g)
- Hooks: Trebles #5/0 (730 g)
- Attachment wire-eye for additional stinger hooks
- Great swimming-action
- 100+ Lbs PE braid assist hook rig included
- Heavy wire Japanese style saltwater treble
- Package contains 1 complete lure

A wicked bad-boy is ready to hit the sea fishing camps, the charter boats, and all the fast boats out to catch the big one. Big Bob is the

nastiest sea fishing jig to ever swim in the North Sea. Every year during late winter and early spring the so called "Skrei" - the big pelagic cods from the Barents Sea – gather close to the coastline of northern Norway of to eat and spawn. The amount of fish is unbelieva-

S079-447-090 480 g S079-447-091 730 q

ble and the biggest cod found here are the biggest cod found anywhere in the World. Big Bob is designed to play with these big boys as well as the biggest halibut. No matter if you are out to set a new European cod record or out to catch a big 'barndoor', you now have the choice of trying Big Bob in two sizes: Big Bob at 480g and 30cm or the really Big Bob at 730g and 40cm.

FLAT MATT JIG

Code	Model	Length	Weight	Qty	Trade Unit
S080-XXX-073	Flat Mat Jig	8.5 cm	28 g	1 head 2 bodie	es 4
S080-XXX-132	Flat Mat Jig	13 cm	85 a	1 head 2 hodie	25 1

- Ultra sharp and strong sea fishing hook
- Hook size: Single #1/0 (28 g), #5/0 (85 g)
- Active 3D eyes
- Life-Like Lure
- Easy action curl tail / natural tail
- Durable hand painted detailed colors
- Package contains 1 head, 1 curltail and 1 natural tail

When you stare at him in your tackle box, Flat Matt may look just that: flat! But the second this guy hits the water he bursts into life with an incredibly realistic swimming action on the drop aided by the curly tail and side skirts around his wide-profile body that look amazingly appetizing to any hungry predator.

As with most of our lures, Matt is versatile. You can twitch and shimmy

Bleeding Flounder S080-357-073 28 g S080-357-132 85 g

Peacock Flounder S080-358-073 28 g S080-358-132 85 g

him along the bottom with subtle rod bumps, or retrieve him slowly to see him creep along. Alternatively, you can jig him faster and get him up into the pelagic zone - just make sure you're ready for action because this sight might be too much for some predators to resist.

Flat Matt may not realize it, but his kind are a hugely important food source in the watery food chain, making this lure a certain day saver!

- Looks more like the real thing than the real thing!
- Designed for huge cod and halibut
- Active eyes
- Durable paint
- Ultra sharp and strong sea fishing hook
- Hook: Single #10/0
- Includes spare body

The next best thing to dynamite! When the huge halibut settle down in shallow, sandy areas, they're just waiting for little plaice and flounder to flicker overhead. And when Flat Matt shimmies along, swimming for all the world like a panicky little flounder, they can't help themselves. You've never fished anything like this before! Jig it with short, distinct pulls on the rod to keep him wriggling tantalisingly close to the bottom, or tease him slowly upwards into the Pelagic zone to trigger an explosive response.

Lures don't come more realistic and life-like than this - it's not just a lure; it's part of the food chain! Scientists tell us that redfish can make up 75% of the halibut's food source in the North Atlantic*. The adult redfish is abundant in deep water while tasty baby ones are found in Fjords, bays and inshore waters. Choose between two updated weights/sizes 360 g or 460 g including a spare body. See all the colours and the underwater action of Red Ed and other Westin lure sea fishing jigs on Westin-fishing.com or on YouTube. *McIntyre, A. D. (1953). The food of halibut from North Atlantic fishing grounds. Marine research, Scotland 1952(3), 1-20.

- Lead free concept
- Material: Zinc
- Range includes FluoMax and Glow colors
- Ultra sharp and strong treble hook
- Hook size: #4 / #3
- Stay On double split ring hook mount
- Designed and developed in Scandinavia

The small Danish island of Bornholm in the Baltic Ocean is famous for its excellent sea trout fishing. For many years local lure makers have been using a design with a small keel to make compact and balanced lures with a side-to-side action. In Danish "køl" means keel, and Bornholmerkøl is

a traditional sea trout lure available in a range of popular colors. It will cast far and catch fish even when facing waves, strong wind and rough conditions.

SØLVPILEN

- Ultra sharp and strong treble hook
- Hook size: #4/#3/#2
- Stay On double split ring hook mount
- Designed and developed in Scandinavia

Translated into English Sølvpilen means Silver Arrow. This Lead free lure will cast like an arrow flies, and it has proved to be a great lure to imitate prey like sand eels. Several sea trout exceeding five kilos has been caught

on this lure and even Atlantic salmon has been caught when using Sølvpilen from the shore. So far the biggest we have heard of was a 10.7 kg salmon caught in Lillebaelt in Denmark...

F360°

Code	Model	Length	Weight	Trade Unit

- Full wire-through-body construction
- Durable hand painted detailed colors
- Designed and developed in Scandinavia

Making great lures even better is something we specialize in here at Westin, so when creating the $F360^\circ$, we combined the best traits and key features from both the $D360^\circ$ and $D360^\circ$ D lures to create a long-casting seatrout lure with a stunning life like swimming action. It's good looks are

paired with great strength thanks to a full wire through body, mounted double split rings and strong treble hooks. A medium/fast retrieve will catch the hungry seatrout's eye and with a spin/stop to create irregular rotation, you can be guaranteed that a bar of silver is coming your way.

SPIN LURES 129

- Teflon tube inside
- Lead free construction
- Material: Zinc
- Several UV and FluoMax colors
- Several front/back contrast colors
- Inline concept lose less fish!
- Designed and developed in Scandinavia

This inline lure is designed to catch more fish — and loose less! It will cast far and has a great irregular action that will attract fish from far away. Occasional spin stops will make it spin and rotate to attract even more trout.

The D360° trout version is designed for put & take fishing as well as other types of trout lakes where the fish sometimes tend to be very shy. If necessary, D360° can be fished at an extremely slow pace and still keep its vivid action. This will make a huge difference in catch rate on high pressure waters. The several front/back contrast colors are another

feature that will make a great difference. When fishing for wild trout in alpine lakes this small $D360^\circ$ is worth a try. It will catch both numerous and huge trout's.

Rigging tip: Run your line through the lure and use a small round or oval bead to protect the knot before tying the line to a single or treble hook of your choice. If you prefer a free swinging hook we recommend mounting the hook on an oval split ring and tying the knot to the double-stranded part of the ring.

D360°

Mo87-XXX-066	D360°	9.5 cm	18 g	6
M087-XXX-073	D360°	11 cm	28 q	6

- Teflon-tube inside
- Lead free construction
- Material: Zinc
- Several UV, FluoMax and MetalPlated colors
- Incredible swimming action
- Inline concept lose less fish!
- Designed and developed in Scandinavia

This inline lure is designed to catch more fish - and loose less! It will cast far and has a great irregular action that will attract fish from far away. Occasional spin stops will make it spin and rotate to attract even more trout.

The 18 and 28g sea trout versions are designed for sea trout fishing along the shoreline. Even in strong winds they will cast far and still they can be fished in surprisingly shallow water. During the test of the final sample of this lure, one of our team members caught an impressive num-

ber of big trout including five chrome fish exceeding 3.0 kilos – all caught during five hours of fishing!

Rigging tip: Run your line through the lure and use a small round or oval bead to protect the knot before tying the line to a single- or treble hook of your choice. If you prefer a free swinging hook we recommend mounting the hook on an oval split ring and tying the knot to the double-stranded part of the ring.

- Lead Free
- Material: Zinc
- Long cast design
- Durable hand painted detailed colors
- Inline concept lose less fish!
- Designed and developed in Scandinavia

Designed to catch more fish and lose less, this in-line lure is based on a classic that just keeps catching the big ones! Narrower than the original D360° and with more weight in the tail, it allows you to cast to the horizon, even in a stiff wind, in search of the best fish. It rotates on the retrieve

making the big seatrout go wild, and comes in a wide range of irresistible handpainted colours. Just cast it out and watch it go like a fish-seeking

Translated to English the name Sømmet means "the Nail" - and it will nail those big trout. This in-line lure is a perfect long casting lure and one of the all-time favorites among hardcore sea trout anglers in parts of Scandinavia. It might look like a nail, but in the water it's a great imitation of sand eel - perhaps the most important prey for big sea trout hunting in shallow water. Rigging tip: Run your line through the lure and use a small round or oval bead to protect the knot before tying the line to a single- or treble hook of your choice. If you prefer a free swinging hook we recommend mounting the hook on an oval split ring and tying the knot to the double-stranded part of the ring.

- ASIDE
- Teflon-tube insideLead free concept
- Material: ABS plastic / Zinc
- Single hook
- Inline concept loose less fish!

Based on the bestselling Westin lure Salty, this Inline lure has it all. It will cast far even against the hardest wind, it can be fished fast or slow, it can be used in shallow as well as deep water and it has a swimming

action that appeals to trout and seabass at all times of year. Salty Inline imitates numerous baitfish on the seatrout and seabass menu and the inline system ensures a significantly better hook-up ratio.

SPIN LURES INLINE

GOBY

Code	Model	Length	Weight	Trade Unit
M094-XXX-063	Goby	6.5 cm	14 g	6
M094-XXX-068	Goby	8 cm	20 g	6

- Materials: ABS plastic / Lead
- Ultra sharp and strong treble hook
- Hook size: #4 / #5
- Stay On double split ring hook mount
- Designed and developed in Scandinavia

Several different species of fish from the Gobiidae family, also known as Goby are commonly distributed along the Scandinavian coastline. They are common prey and serve as an important food source for most Scandinavian sea trout. Just like the real thing, Westin Goby is irresistible to

trout. It comes in a great selection of colors and sizes and due to the provocative swimming action and the long casting abilities it's a 'must have' in the lure box of any serious sea trout angler.

Get ready to Rock n' Roll! "Kongetobis" is a popular name for the biggest sand eels found along the Scandinavian coastline. This lure mimics their size and swimming pattern. When fished with a steady to fast retrieve the front part will break the surface giving you the exact and

discrete swimming pattern of a sand eel skimming the surface for food. To make the lure do this the balance has to be just perfect – exactly what we managed to do with Kongetobisen.

- Stay On double split ring hook mount
- Designed and developed in Scandinavia

Great Heron is a lure designed according to Finnish lure traditions. It was created and tested in cooperation with experienced anglers from Finland and Sweden. Right from the very beginning it has proved to be a highly efficient lure – not only for trout and salmon, but also for species like asp,

perch and pike. Great Heron can be retrieved fast or slow. Regardless of the speed it has a very vivid action that will trigger the bite. No wonder this lure has become one of the most popular lures in Scandinavia!

- Lead free concept
- Material: ABS plastic / Zinc
- Several UV, FluoMax and Glow colors
- Oversize active eve
- Ultra sharp and strong treble hook
- Hook size: #4
- Stay On double split ring hook mount
- Designed and developed in Scandinavia

When Westin Seatrout was introduced, it brought a new dimension into Scandinavian sea trout fishing. Attention was extreme and expectations were sky high. The oversized eye, the high quality and the calm but enticing swimming action was something never seen before. Judged by the number of sea trout caught by this Westin lure it turned out to fulfill even the highest expectations...

This best selling Westin lure has it all. It will cast far even against the hardest wind, it can be fished fast or slow, it can be used in extremely shallow water and it has a swimming action that appeals to trout at all times of year. Try the largest version when night fishing for really big trout during the summer. Numerous fish in excess of five kilos have been

tricked by the action and the baitfish-like silhouette this lure creates. And if we're talking picky trout in wintertime nothing can compare to the medium or small versions fished at a slow pace with a few twitches of the rod tip and a couple of pauses during the retrieve.

OPTIC 360° SPINNERS

Code	Model	Weight	Size	Trade Unit
M102-XXX-082	Optic 360°	8 g	# 3	6
M102-XXX-060	Optic 360°	10.5 g	# 4	6

- Material: Brass
- Instant 360° rotating blade
- Ultra sharp and strong treble hook
- Optic blade reflects light from different angles
- Designed and developed in Scandinavia

The brass body construction of the Westin Optic 360° has an aerodynamic shape that will ensure great casting distance and accuracy. The beautifully designed brass blade will reflect light from different angles. It rotates at the slightest touch of the reel handle and initiates those

impulses of movement that no trout, salmon or other predator can resist. This is simply the best looking and most attractive spinner out there and the strong Japanese-style hooks will stand the test of even the hardest fighting fish.
